## **Protect Apple Health for Kids**

**Pass [HB 2660](#) / [SB 6304](#)**

Healthy children do better in school and in life. For nearly a decade, with bipartisan support, Apple Health for Kids has successfully helped ensure that over 97% of our state's children have health care coverage. With so much instability surrounding health care coverage at the federal level, the health of Washington's children and pregnant women is in jeopardy.

HB 2660 / SB 6304 stabilizes the health care coverage of 1 in 2 Washington children and preserves current eligibility so no child or expecting mother loses coverage.

What the bill does:

- Ensures that kids in currently eligible households (those with incomes less than or equal to 312 percent of the federal poverty level) have access to the health coverage (medical, dental, vision) available through Apple Health for Kids.
- Maintains health care coverage for income-eligible pregnant women, so they can maximize their health and the health of their babies.

With Apple Health for Kids, our state made a commitment to ensure all kids have health care coverage.

**The success of Apple Health for Kids is worth protecting.**
